For Animal use only

## 8% APPLE CIDER VINEGAR

### With Honey & Garlic. Feed Supplement

Available Sizes  
1L - 5L - 10L - 20L

APPLE CIDER VINEGAR:- 8% Acetic Acid (Double strength)

Added acetic acid increases the acid content to a percentage of 8%.

The increased acid content balances the pH levels in the digestive system.

Used to treat ailments for centuries. This wonderful old-timers remedy, reportedly has been used to treat more ailments than most other remedies.

Ideal for Horses, Dogs and Cats. Assists with arthritic conditions, controls flies, and delivers a shine to their coats.

May assist with allergies, acid reflux, sore throats, and arthritis, to name a few.

Apple Cider Vinegar is claimed to have Anti Fungal Anti Viral and Anti Bacterial benefits

It has also been reported that a daily dose of Apple Cider Vinegar may assist with blood issues.

**Added Honey may assist in prevention of cancer and heart disease:**

Reduce ulcers and other gastrointestinal disorders.

Anti-bacterial, anti-fungal, anti-viral:

Increase athletic performance.

Reduce cough and throat irritation:

**Added Garlic may assist in control of bacterial, viral, fungal, yeast and worm infections.**

To treat skin infections The chemical ajoene found in garlic may help treat fungal skin infections like ringworm.

Blood thinning The anti-clotting properties of ajoene found in garlic help in preventing the formation of blood clots in the body.

Garlic is known to have anti-inflammatory property. It can help the body fight against allergies.

The anti-arthritic property of garlic is due to diallyl sulphide and thiacremonone.

Garlic has been shown to improve allergic airway inflammation (allergic rhinitis).

**Dosages and Administration Administer in the feed - (Start with smaller doses)**

Small Horses	30 to 40 mL Morning and Night
Race and Show Horses	60 to 80 mL Morning and Night
Small Dogs	5mL Morning and Night
Large Dogs	10mL Morning and Night
Cats	2mL Morning and Night
